ABOUT ME

Second-year Computer Science student with hands-on experience in building modern web applications, responsive user interfaces, and scalable full-stack systems. Skilled in React, Next.js, JavaScript, TypeScript, Firebase, and Supabase, with experience in API integrations, authentication systems, and deployment workflows. Passionate about creating efficient, user-centric digital experiences and solving real-world problems through clean and scalable code.

SKILLS

Languages	: JavaScript, TypeScript, Python, HTML5, CSS3, PHP
Frontend	: React.js, Next.js, Tailwind CSS, Framer Motion
Backend	: Node.js, REST APIs, Firebase
Databases	: Supabase, Firebase Firestore
Tools	: Git, GitHub, Vercel, API Integration, Figma, LLM Integration
Core CS	: DSA, Problem Solving, API Integration

EDUCATION

Newton School Of Technology

B.Tech in Computer Science (AI/ML) | 2025 – 2029
CGPA: 9.4/10

CERTIFICATIONS

- OCI AI Foundations Associate
- Oracle Certified Generative AI Professional
- Oracle AI Vector Search Certified Professional

PROJECTS

Omnikon Organization Website [\[REPO\]](#) [\[WEBSITE\]](#)

June 2026

Tech : HTML, CSS, JavaScript, Tailwind CSS, Firebase, Supabase, REST APIs, Figma, Stitch

- Built and deployed a production-ready organization website by transforming Figma designs into a scalable, fully functional platform.
- Optimized frontend performance and responsive design, achieving 40% faster load times and seamless cross-device compatibility.
- Implemented secure authentication workflows with Firebase OAuth (Google/GitHub) and role-based access control, improving user onboarding and security.
- Integrated Supabase and REST APIs for real-time data synchronization and dynamic content management, enabling faster updates and improved operational efficiency.

ConferAI [\[REPO\]](#) [\[WEBSITE\]](#)

June 2026

Tech : Next.js, React, Node.js, WebSockets, Tailwind CSS, Firebase, Deepgram API, Vercel, Render

- Built a real-time conferencing platform supporting 10+ concurrent users with live UI synchronization.
- Developed a full-stack system with Firebase Authentication and WebSocket-based live transcription pipelines.
- Optimized audio processing to maintain sub-500ms latency, improving transcription speed by 40%.
- Deployed unified HTTP/WebSocket servers with multi-microphone sync and echo cancellation, reducing audio overlap by 30%.

Code-9 Community Website [\[REPO\]](#) [\[Deployed\]](#)

June 2026

Tech : React, JavaScript, Tailwind CSS, Framer Motion, Figma, Typescript

- Designed and developed a modern community website during a UI competition, focusing on responsive layouts and interactive user experience.
- Built 15+ reusable UI sections with smooth animations, optimized navigation, and scalable frontend structure.
- Improved page load performance by 30% through component optimization and efficient asset handling.
- Improved mobile responsiveness by 35% and reduced load time by 20%.

WORK EXPERIENCE

AI Intern at FlyRank AI

July 2026

- Working on AI-driven content automation and SEO optimization workflows.
- Building LLM-powered content generation and localization pipelines for scalable organic growth.
- Contributing to AI automation systems improving content efficiency and search visibility.

Co-Founder & Maintainer – Omnikon Organization

June 2026 - Present

- Led development and deployment of the official open-source organization website, improving contributor onboarding and community visibility.
- Managed deployment, feature releases, and contributor workflows.

Open Source Contributor – HacktoberFest

OCT 2025

- Successfully contributed multiple pull requests across open-source repositories.
- Collaborated on bug fixes and feature implementations.

Data Structures & Algorithms | System Design | RESTful APIs | Authentication | State Management | CI/CD | MongoDB / PostgreSQL | Docker | Git workflows | Prompt Engineering | LLM Integration
